W47.1-03, 6th edition

Certification of Companies for Fusion Welding of Steel \$150

This standard provides requirements for the certification of companies engaged in fusion welding of steel and the qualification of their personnel and welding procedures.

The requirements of this standard are based on the principle that a certified company has full responsibility for the quality of the welded product it produces, and this responsibility cannot be transferred to its employed or retained personnel, or to the administrator of this standard.

Z241 Series-03, 2nd edition

Part Model Trailers \$210

The Z241 Series includes the following standards:

- **Z241.0-03**, *Definitions and General Safety Requirements for Park Model Trailers*. This standard provides the definition of the term “park model trailer” as used in the Z241 series of standards. It also gives general safety requirements that apply to the other standards in the series.
- **Z241.1-03**, *Vehicular Requirements for Park Model Trailers*. This standard specifies vehicular requirements for park model trailers, including minimum requirements for the coupling and the tongue or A-frame, and for the running gear of the trailer. This standard applies to park model trailers equipped with returnable running gear or limited-use running gear.
- **Z241.2-03**, *Construction Requirements for Park Model Trailers*. This standard outlines the minimum requirements for materials, products, equipment, and quality of work needed to ensure that park model trailers will provide adequate
 - a) structural strength and rigidity;
 - b) protection against corrosion, decay, insects, and similar destructive forces;
 - c) protection against the hazards of fire;
 - d) resistance to the elements, and
 - e) durability and economy of maintenance.
- **Z241.3-03**, *Plumbing System Requirements for Park Model Trailers*. This standard specifies the minimum installation requirements and material standards for a plumbing system in a park model trailer.
- **Z241.4-03**, *Installation Requirements for Propane Appliances and Equipment in Park Model Trailers*. This standard applies to factory installation of propane appliances and equipment in park model trailers.
- **Z241.5-03**, *Electrical Requirements for Park Model Trailers*. This standard applies to the electrical requirements for park model trailers that are intended to be connected by a cord and attachment plug to a source of electrical supply not exceeding 250 V between conductors or 150 V to ground, and 50 A maximum, in accordance with the rules of the *Canadian Electrical Code, Part I*.
