New Standards – New Editions – Special Publications

A220 Series-06, 2nd edition

Concrete Roof Tiles \$125

The A220 Series contains the following standards:

- **A220.0-06**, *Performance of Concrete Roof Tiles*. This standard applies to concrete roof tiles and tiling accessories intended for use as weather-resistant roofing materials. This standard specifies requirements and procedures for the sampling and testing of concrete roof tiles for dimensional tolerances, water absorption, water permeability, freezing and thawing resistance, transverse strength, and material quality.
- **A220.1-06**, *Installation of Concrete Roof Tiles*. This standard applies to the installation of concrete roof tiles and tiling accessories on roofs with slopes of 1:3 and greater. This standard provides minimum requirements for the installation of battens and underlayment materials under concrete roof tiles as well as the related requirements for weather-resistant roofing systems.

A440.4-07, 2nd edition

Window, Door, and Skylight Installation..... \$150

This standard provides methods for installing both new and replacement factory-assembled windows, exterior doors, and unit skylights that are intended for installation in low-rise buildings and buildings used primarily for residential occupancy, as follows:

- the windows (including window wall) are within the application of CAN/CSA-A440/A440.1; or R, LC, or C class within the application of AAMA/WDMA/CSA 101/I.S.2/A440
- the doors are within the application of CAN/CGSB-82.1, CAN/CGSB-82.5, or CAN/CSA-O132; or R, LC, or C class within the application of AAMA/WDMA/CSA 101/I.S.2/A440
- the skylights are within the application of CAN/CGSB-63.14-M89; or R, LC, or C class within the application of AAMA/WDMA/CSA 101/I.S.2/A440

Nouvelles normes – Nouvelles éditions – Publications spéciales publiées en français

A82-06, 1^{re} édition

Brique de maçonnerie cuite en argile ou en schiste..... 70 \$

Cette norme s'applique aux briques cuites en argile ou en schiste utilisées comme éléments structuraux ou de parement pour la maçonnerie. Elle traite notamment des exigences d'essais et autres exigences relatives à la durabilité au gel et au dégel, au fini, à la texture, à la couleur, à la résistance à la compression, à l'absorption d'eau, à l'efflorescence, aux dimensions, à la déformation et au faux équerrage.

O122-06, 3^e édition

Bois de charpente lamellé-collé..... 80 \$

Cette norme prescrit les exigences minimales relatives à la fabrication du bois lamellé-collé des essences énumérées dans la CAN/CSA-O86. Cette norme ne tient pas compte de l'entreposage, de la manutention ni de la mise en œuvre des ces produits fabriqués.

O177-06, 5^e édition

Règles de qualification des fabricants de bois de charpente lamellé-collé..... 80 \$

Le produit fini ne peut être facilement mis à l'essai qu'en laboratoire. Par conséquent, le contrôle de la qualité de la fabrication est nécessaire afin de veiller à ce que les propriétés du produit se mesurent adéquatement aux résistances prescrites pour le bois lamellé-collé, conformément à la CAN/CSA-O86. Cette norme énonce les règles de qualification des fabricants de bois de charpente lamellé, collé par pression ou par des moyens mécaniques autres que le clouage.

Amendments

CAN/CSA-A440-00/A440.1-00 (R2005)

Windows / User Selection Guide to A440-00

Revision of Clause 5.4.1 of A440-00.

ASME A112.18.1-2005/CSA B125.1-05

Plumbing Supply Fittings

Revision of the Contents, Joint Harmonization Task Group, Clauses 1.1, 2.2, 3.1, 4.16, 5.5.1, 5.8.1.1, and 5.8.1.2, Table 2, and Figures 1 and 4. Addition of Clause 5.11.

ASME A112.18.2-2005/CSA B125.2-05

Plumbing Waste Fittings

Revision of Joint Harmonization Task Group and Clause 5.6.4.2.

B125.3-05

Plumbing Fittings

Revision of the Contents, Clauses 3.1, 4.13, and 5.9.2.3, and Figures 3–5. Addition of Clauses 5.7.6 and 6.9.

Modifications publiées en français

Certification of Welding Inspection Organizations

Formal Interpretations

The following interpretation regarding Clause 1.1 of CSA standard CAN/CSA-B45.10-01, has been approved by the Technical Committee on Plumbing Fixtures.

Question: In order to be in compliance with CSA B45.10-01, is it necessary for the overall appliance (the complete hydromassage bathtub with electrical devices installed) to comply with all of the applicable requirements of CSA C22.2 No. 218.2 (as implied by Clause 1.1)?

Answer: Yes.

Under Development

Notice of Intent

For more information about the proposed development of the following new project, contact Ted Koza at 416-747-2691 or ted.koza@csa.ca
